

Deutsche Neutronenstreutagung

Dienstag, 17. September 2024

Session 6: Health and Life (Chairs: Tobias Schrader & Emanuel Schneck) - PPS-2 (15:00 - 16:40)

time	[id] title	presenter
15:00	[140] Small Angle Neutron Scattering for Investigation of Next-Generation Delivery Systems for RNA	HAAS, Heinrich
15:20	[93] In-situ microbiological dairy gel formation probed by Bonse-Hart ultra small angle neutron scattering	KODUVAYUR ANANTHANARAYANAN, Ramya
15:40	[76] Influence of Neurodegenerative Peptide and Non-steroidal Anti-inflammatory Drugs on the Dynamics of Brain Lipid Membrane Mimetic Systems	DUBEY, Purushottam S
16:00	[100] The influence of glycolipids on the interaction of lipid membranes: Insights from a combination of neutron scattering techniques	
16:20	[133] Hydration and Dynamics of Pendant Glycosylation in Mucins
